

Agrobase Mobile Application

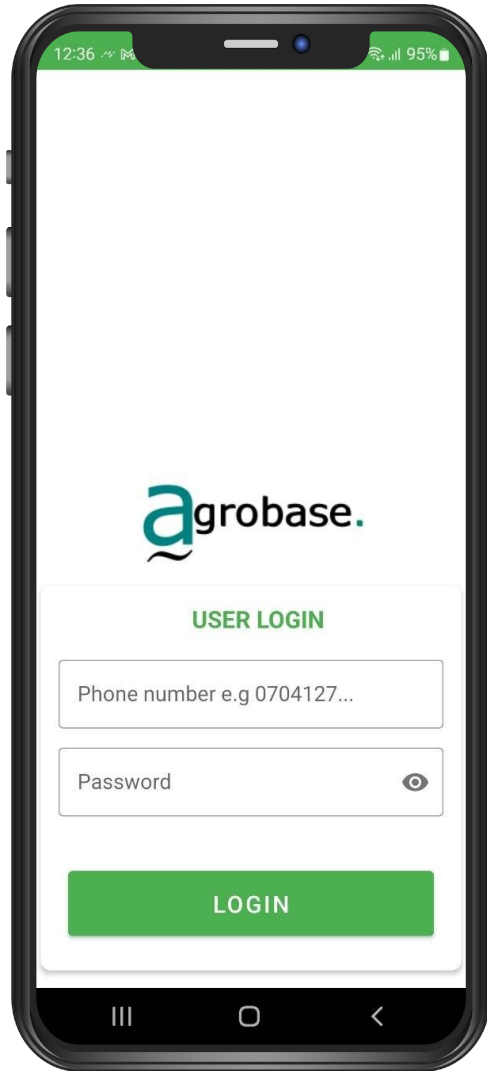

Overview: The Farmer Profiling App is designed to collect and manage comprehensive data on farmers, including biographical information, location details, and farm-specific data. This digital tool enables efficient capture and organization of farmer profiles, supporting agricultural programs, outreach, and data-driven decision-making.

Core Features:

- **Farmer Biography Collection:** Captures detailed biographical information about farmers.
- **Location Data Collection:** Records geographical location details of farms.
- **Farm Data Management:** Collects and manages data on farm characteristics, practices, and assets.
- **Data Storage and Retrieval:** Securely stores farmer profiles for easy access and analysis.
- **Offline Data Capture:** Enables data collection in areas with limited connectivity, with syncing capabilities.

Farm GPS

Click the GPS icon till it shows 'success' under the icon and save member data

Upload Member Data

on the main menu, click the dots above to show upload menu

Confirm

select 'upload farmers' and confirm

FAQs

1. Q: Does the App work offline?

A: Yes, the app functions offline. Data connection is required only for initial login and uploading profiled data.

2. Q: How do I obtain login credentials?

Credentials are sent via SMS after you've been profiled into the system. If you forget or lose your password, contact an Administrator for password reset assistance.

3. Q: Some farmers I'm profiling prefer not to share certain data or photos. How do I handle this?

A: For text fields, enter "N/A" to indicate non-applicability. For numeric fields, use "0". If a photo is required but the farmer is unwilling, you can capture an image of a plain background or a blank paper to proceed.

4. Q: I'm encountering an error when trying to log in (Inconsistent User Data Found...). What does it mean?

A: The error typically indicates you're not associated with a group. Contact an Administrator to ensure you're attached to a relevant group, then retry login.

5. Q: Can I edit a farmer's profile after it's been saved?

A: Yes, profiles can typically be edited. click on the profile from the list to edit the data
